By [Angela Ash](#)

Every city has a dark side, and the historic area of Fells Point is definitely not the exception. So what better way to explore than to join in on a Ghost Walk?

The Original Fells Point Ghost Walk takes a small group of visitors through the cobblestone streets to stop at a variety of places where spirits have

been seen, odd events have occurred, or anywhere that falls squarely under the category of "just plain creepy".

With expert guides who definitely have all of their historical facts straight, tour participants will visit a cemetery, strange buildings and places, and even a bar that Edgar Allan Poe frequented... all accompanied with a flavorful narrative that seems to hurl its listeners straight into the past.
